

ERIC Workshop

Realizing Precision Medicine In CLL – What Is The Value Of Biomarkers?

May 25, 2023

09.00 - 09.15	Welcome	Carsten Niemann, Carlos Chiattonne
09.15 - 09.30	Introduction to ERIC	Paolo Ghia
Session I – Things in context		
Chair: Richard Rosenquist		
09.30 - 10.30	Biomarker guided treatment in CLL	Paolo Ghia, Kostas Stamatopoulos
10.30 - 11.00	Coffee Break	
Session II – TP53 aberrations		
Chair: Carsten Niemann		
11.00 - 11.45	Methodological considerations	Sarka Pavlova
11.45 - 12.00	use 15-20 minutes for a clinical presentation on how to implement TP53 aberrations into clinical use	
12:00 - 12.30	Polling questions – important to allow time for discussion/comments, thus probably only 2-3 questions	
12.30 - 13.30	Lunch break	
Session III – Immunoglobulin genes		
Chair: Paolo Ghia		
13.30 - 14.15	Methodological considerations	Kostas Stamatopoulos
14:15 – 14:30	use 15-20 minutes for a clinical presentation on how to implement IGHV mutations into clinical use	
14.30 - 15.00	Polling questions – important to allow time for discussion/comments, thus probably only 2-3 questions	
15.00 – 15.30	Coffee break	
Session IV - MRD		
Chair: Paolo Ghia		
15.30 - 16.15	Methodological considerations	Andy Rawstron
16:15 – 16:30	use 15-20 minutes for a clinical presentation on how to implement MRD into clinical use	
16.30 - 17.00	Polling questions – important to allow time for discussion/comments, thus probably only 2-3 questions	
Session V – Biomarker testing in Brazil		
Chairs: Carlos Chiattonne, Carsten Niemann		
17.00 - 18.00	Sharing experiences – include representatives from the main laboratories in Brazil
